EDU DESIGNS is a 501(c)3 Non Profit Charity whose mission is to produce and distribute multimedia materials for the education, motivation and character development of children.

Books available from EDUDESIGNS:

SEE WHAT YOU'RE LOOKING AT!

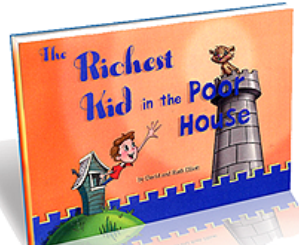

By tapping into your spatial intelligence you can learn to do what the book says, and "See What You're Looking At!"

The idea was simple: to start at the foundation of perception to analyze how we utilize our hands to capture what our eyes see. This is the logic used in the new Art textbook for children, *See What You're Looking At*. An indispensable Art resource for educators, representing over 25 years of research and analysis.

In *See What You're Looking At*, the California Math Standards are referenced throughout the book to enable children to coordinate their understanding of Art with Mathematics. *See What You're Looking At* provides a fresh perspective on Art by showing it's interrelatedness to Mathematics.
